2011 Exhibit Highlights

Digital/ HD Surveillance Pavilion
Area M/N, Upper Floor
Debut at Secutech 2011! Covering over a forth area of the 4700-sqm space, the HD pavilion’s importance is widely presented by leading brands of HD cameras, display and transmission devices from various countries. (See pages 8-13)

Access Control Pavilion
Area L, Upper Floor
A collection of access control, RFID and biometrics products are centered at the show right next to our registration site. Spanning out in more than 800 square meters of exhibit space this pavilion is the networking centre for the access control security industry elites and security consultants sourcing for cost-effective solutions. (See pages 18-19)

Intelligent Buildings and Smart Homes Pavilion
Area L/M, Upper Floor
The Intelligent Buildings and Smart Homes pavilion will feature a full range of hardware, software and services for home automation systems such as intruder alarms, intercoms and phones, window sensors, motion detectors, remote controls, dimmers, pendant transmitters. Special designed zones and galleries includes: Intelligent building, Intrusion alarms and China Intercom. (See pages 20)

IP Equipment Pavilion
Area J/K, Ground Floor
The world’s largest pavilion for IP surveillance, taking more than 4000 sqm! Gathering 95% of top camera manufacturers from Taiwan and Korea, buyers are enabled to see the comprehensive options and latest launches from these important makers. (See pages 13-17)

Composec 2011 - Conference and exhibition dedicated to components in Security Technologies and Applications
Area M, Upper Floor
The world’s only exhibition and conference for security components gather top leading design solution providers under one roof, and offer a series of product design solutions seminars for security product suppliers. This is a show exploring the design solutions of major parts of Video Surveillance under one roof! Covered themes will target at HD Surveillance, Transmission & Interface, Next-gen Identification & Management and Green Security. (See pages 22 & 27)

Camera Excellence Award
Area M, Upper Floor
Located in the Digital/HD surveillance pavilion, the event will commit to celebrate and reward creative excellence, honoring a powerful form of communication and its impact on the security industry. We call for all international visitors to join this grand event with us by using the ballot attached to their badges! Voting for the camera excellence award event also comes with lucky draw opportunities on-site. Do not miss out! (See pages 5-7)

Video Software Zone
Area K, Ground Floor
Debut at the show that comprises 270-sq.m space at IP surveillance pavilion of Secutech 2011 is dedicated for video software to highlight products. This platform is utterly a professional platform for hardware makers, software developers and Asia system integrators to communicate and interact. Do not miss speaking companies from software companies, IVS and VCA companies, design house of advanced video analytics and IT analytics solution providers. (See pages 17-19)

Video Storage & Recording Solution Zone
Area J, Ground Floor
200-sq.m space at IP surveillance pavilion is especially dedicated for storage and recording. Come to find the storage devices and solutions that are efficient in scalability, availability and have great manageability. (See pages 17-18)

Country Pavilions
Area J/M/N- China, Area K- Korea, Area N- Singapore, Area N- USA Pavilion
Are you looking for ready-to-be-shipped products? Country pavilions are the best ways to retrieve diversified products of Cameras, Storage devices, Access Control Solutions and many more. Strong design and manufacturing ability are just two simple avenues carried by manufacturing & designing houses. Secutech 2011 truly facilitates your sourcing route with country pavilions of China, Korea, Singapore and USA!

Taiwan made Fire & Safety
Area J, Fire & Safety
Fire & Safety Taipei 2011 will feature three zones: Disaster Prevention, Fire Prevention and Occupational Safety which will enhance networking efficiency for buyers. A series of Taiwan-made equipment demonstration will be delivered.

Business Matching
Area L, Upper Floor
Sit down with prime security manufacturers to get tailor-made packages on your sourcing targets- A unique service of one-on-one meetings with quality manufacturers providing the products you are looking for.

Welcome all International Buyers to the Gala at The Wok Restaurant, 3F on April 20th, 18:30-20:30!

EverFocus - the best Full HD image solution provider. No matter you are IS/CCCTV or IP surveillance system user, we will connect you to the Full HD image world. EverFocus surveillance, various choices of plug/hybrid IS/CCCTV DVRs and cameras offer high resolution image right away with original coaxial cable. Enjoy real play-and-play, IP surveillance, 2 megapixel network cameras recording at 1080p/30 give you true real-time performance. There will be no more video latency in live view and playback.

ACUMEN INT. CORP. / M600-M605

Company Acumen, as one of the leading players in the video surveillance market, annually participates in the forum. Conventionally, booth of Acumen displays the design in our enterprise’s style. Acumen presents its latest developments, as well as models which have gained popularity from customers. During the event, Acumen surprises visitors with unforgettable packages and with the latest innovations as well: antivandal, Weatherproof series of “Shark” will be first presented at the booth of Acumen displays the design in our enterprise’s style. Acumen displays the design in our enterprise’s style. Acumen displays the design in our enterprise’s style.

ADVANTECH CO., LTD. / K100-K107

Welcome to Advantech’s booth! This year, we proudly present you the latest Intelligent Video Surveillance technologies and comprehensive applications in the market. Designed to optimize the analysis of video content, our IDS system helps users to observe, track and categorize objects as well as detect unusual events giving pivotal vital information to effectively respond to alerts. Grab the chance to experience our innovative video convergence with advanced IP surveillance solutions in person NOW!

D-Tech Corporation/ J159-J157

AUTECH new mega-pixel IP camera series is small and exquisite with a white LED built-in, suitable for indoor use. Remote monitoring and control is also a breeze with 5 web browsers on Windows and Mac OS, and 7 popular mobile devices (iPad, iPhone, BlackBerry, Android, Symbian & Windows Mobile). For the new mega-pixel IP camera models, AVN304 and AVM404, we’re also looking for partnership with online and / or physical shops. Please visit us if you’re interested.

BIG GOOD HOLDINGS LIMITED / J515-J530

We are welcome you to visit our booth J512, and we will sharing our latest technology of IP camera product line for megapixel camera, IP66 ready outdoor application, and present our total solution for Consumer, Enterprise market to you. We are open for country agent and seeking IPX partner in the show. We are looking forward your visit in the show.

BRICKCOM CORPORATION / J125-J136

Brickcom will exhibit its high definition IP cameras with Sony Exmor sensor which providing higher quality in Low Lux conditions which offer clear surveillance in day and night. Also its cameras are designed to offer the users the flexibility to create systems which meet their needs, and this includes offering several winners solution: data transmission over 3G, Wi-Fi, and WMXMAX which is ideal for surveillance which needs to span large areas. During the tradeshow, Brickcom will feature a seminar every day to highlight its surveillance solutions.

BYTEC CORPORATION/ K159-K167

AUTECH new mega-pixel IP camera series is small and exquisite with a white LED built-in, suitable for indoor use. Remote monitoring and control is also a breeze with 5 web browsers on Windows and Mac OS, and 7 popular mobile devices (iPad, iPhone, BlackBerry, Android, Symbian & Windows Mobile). For the new mega-pixel IP camera models, AVN304 and AVM404, we’re also looking for partnership with online and / or physical shops. Please visit us if you’re interested.

DYNACORP. INC / K119-K117

Full HD Speed Dome IP Camera, NH201/NH202 would be the mostinnovated product. Equipped with SONY progressive scan CMOS sensor and best-in-class 20x optical zoom lens, it leads the market with crystal 1080p video image and full-integrated PTZ control. Compared to D1 PTZ, wider coverage and six times more pixels in every frame provide users great details while monitoring. Premium H.264 HD-SDI hybrid DVR, GBD90 supports 720p real-time recording and true 1080p video display. Compatible with both HD-SDI and analog cameras, it applies the concept of hybrid connection for flexible surveillance solution.

Fuhu Technology Cooperation / M61-M619

FUHO is a leading CCTV manufacturer of DVR, Camera, IP Solution and Mobile Surveillance in Taiwan. We will present Live demo of 3G Vehicle Surveillance from our city buses in the show. Moreover, we provide both Low cost entry level and High-end DVR / Camera products. Welcome to FUHO booth (VRM60-M6801-M6901), we will not only provide you the detail product introductions but also sample offer for your enjoying testing.

GENIUSVISION INC. / K116-K117

Genius has launched many new IP camera recently, and 4 megapixel fish-eye camera is one of our key highlight items of this year. With the exquisite IP solution and the integration with DVR & CMS & access control & POS & license plate recognition, we welcome you to visit Genius to get the most suitable products for your surveillance projects.

GLK SECURITY CORPORATION / B717-M725

GLK offers you a comprehensive HD surveillance solution like the combination system: B71.3 Mega Pixel camera for your eye, B2K DVR, NVR20 software + Viewer 20 software + cloud NVR of IP Solution as frontal lobe for organization and management; Massive Storage Server as temporal lobe for memorization. Want to know more detail? Please come to GLK booth!

HDPRO CO.,LTD / M661-M669

Please kindly visit our HDPRO Booth which can provide you the opportunity to discover the latest security technologies - Analog cameras - Smart-IR with EDOVTEC, 3D-DNR, diversified unique design, etc. - IP Camera solutions, Mega Pool Network Cameras, etc.

HIKVISION DIGITAL TECHNOLOGY CO., LTD. / J717-J721

From corner shop to Olympics, Hikvision applies the same reliable technology into its complete product lines. As SecuTech 2011, Hikvision introduces exciting IP matrix solution, mobile DVR solution and AITA test everyday solutions and more. Hikvision’s latest high-definition surveillance systems include integrated network cameras, megapixel speed domes and network video recorders, as well as powerful video management software as well as also be an display. With advanced video technology embedded, these products provide the most satisfying surveillance experiences ever. Visit Hikvision’s booth (J717-J721) at SecuTech to find out more details!

AVERMEDIA INFORMATION, INC. / K310-K315

Please visit AverMedia booth to find out the most effective surveillance solutions for your various security projects. We will showcase the innovative 16CH dual-core processor and the most profitable 4/8CH embedded hybrid system. Both of them will be the best choice for you to fully utilize between the existing analog and IP technology. For all international buyers and visitors, we will have show program to present the benefits of hybrid solutions and lucry draw activity on April 20th and 21th.
**Must-see Booths**

**HEAR OUT OUR EXHIBITOR MESSAGES TO YOU!**

**HI SHARP / M514-M519**

Please welcome to hisharp’s booth at M514-M519. We will have new technology as face tracking camera, hybrid HVR camera with external IR, H.264 full HD DVR, smart combo DVR, RS485/LCD, mobile LCD, mobile recording box, HD CCTV and more new.

**HOUHEI CORPORATION / M557-M519**

Mobile links live and recorded High Definition video with transmission. Helps users reduce shrinkage and theft, liabilities, address compliance requirements, service level improvements and process efficiencies. HD video provides indisputable and instantaneous evidence. Associates multiple transactions with single camera, address reduced system costs.

**HUTA ELECTRONIC CO., LTD. / M460-M465**

Please do not miss the chance to get fully IP surveillance system in HUTA’s booth. You’ll not just get the IP cameras but also NVRs. Also, you’ll have a free-bundle CMS to control all those NVRs.

**HUPER LABORATORIES CO., LTD. / M418-M419**

As a surveillance professional and technology innovator, huperlab will showcase the world’s first full HD Hybrid DVR with 3D video analytics at ComSec+ 2011. Com and check how to upgrade from CCTV to 1080p HD surveillance while preserving coaxial infrastructure, and how to integrate megapixel IP cameras. HD-SDI CCTV and CCTV cameras into one single system. huperlab further brings IP to a new era by introducing 3D video analytics with its exclusive stress vision camera. Visit huper lab booth M418 for more LIVE IPS demos!

**IRONIC INC. / J315-J322**

Catch inc, a leading CCTV manufacturer will introduce total HD solutions for a wide range of surveillance applications at the show. Our HD DVR RH2-413 supports 4 HD (1080p/720p) CCTV cameras with High Definition Picture Quality. Recording 1080p/720p/1080p HD, Multiplexing, and Auto Switching for 4, 16 aspect ratios. The HD CCTV cameras offer up to 720h resolution with multiple form factors to meet any need. Our booth is No. J315. Please go http://www.catchinc.com for more information.

**INSTEK DIGITAL / K304-K311**

Visit our booth to take control of a full scale enterprise central command station with an CCTV wall and operational server. Operate multiple Command Center consoles to control real-time video analytics, a virtual matrix switch and PTZ and MP cameras. We will also display the latest storage technology, Celstor, which solves the issues of RAID. In addition, MultiVideo’s auto-reclaim technology has integrated with Vivotek’s onboard storage to create an intelligent NVR backup using camera storage, a new industry benchmark.

**INTEL / M620-M628**

Adopting Intel Technologies for High Definition Surveillance
- 2nd generation Intel® Core™ processor
- Intel® Hardware accelerated COGEX x “Intel” Advanced Video Extensions
- Intel® onW™ technology
- Advanced Remote Management with Intel® Active Management Technology * Maximize System Utilization and Reliability with Intel® Virtualization Technology
- Intel® Media SDK * Accelerate your Video Processing Applications

**INTERSHOP TECHNOLOGY CORPORATION / M915-M926**

Please step by step your booth to experience the largest portfolios of surveillance solutions in the world, including the most advanced video decoder TV2000 series and we’ll live-demonstrating fisheye correction, latest transmission technology on SOLC and MegaU, hardware / software compression capture units and worldwide first 3D video encoder, HD Multiplayer / Display and power management. We are pleased to have you join us anytime during the exhibition for a product briefing. Free gifts are prepared for all visitors.

**ITX SECURITY CO., LTD. / K700-K705**

We use the No.1 Standalone DVR manufacturer and exporter in Korea. Please come to see our new network based Product including IP camera / NVR and new CMS. You may see the future of the security industry.

**J & S UNITED TECHNOLOGY CORP. / M1108 - M1113**

Welcome to visit our booth for our comprehensive range of CCTV Cameras, Mobile DVRs, Stand-Alone DVRs, Hybrid DVRs, LIne-based NVRs. Visit us to find out the quality performance of our range of CCTV products now.

**KINGCOME COMMUNICATION ASSOCIATED LTD. (KCA) / M677-M678**

The upmost security solution provider with more than 21 years manufacturing experience, please visit KCA booth to demo newly developed H.264 4-CH Mobile DVR with 3.5G Mobile surveillance / GPS / TPMS / G-sensor… multi-function recording and control which can maximize the value of your vehicle’s security business. Come to KCA booth to find whole security integration for full range H.264 DVR / IP Camera / G3000, WDR Camera / Network Intercom …! KCA – Your marvellous partner.

**KINGWAVE TECHNOLOGY CORP. / K500 - K505**

May I introduce Kingwave is the professional wireless device - wireless camera, digital and analog AV sender, Wireless LAN AP, multi-receivers(2.4GHz – 5.8GHz RF) and wired or wireless H.264 network DVR manufacturer in Taiwan. Please come to our booth, to see the demos of digital transmission to control the PTZ camera wirelessly, and also the low cost version, which you can use remote control to control the DVR or TV wirelessly, that is a optional IR extension version. We also demo the DVR with HDCCTV camera and HDMI output, see you soon!

**KOUKAAM NA. / J314-J316**

Don’t miss a chance to see unique NVRs working. KOUKAAM, one of the pioneers of the standalone NVRs is presenting new product generation of the NVRs including new firmware 2.0. Come to see IPCorder that brings independence into the surveillance – Works on Linux, Mac and Windows OS, access from anywhere through your favorite Internet browsers, via webcam, E-mail,... Touchpad, touchpad, touchpad. As a surveillance professional and technology innovator, koukaam will also demonstrate new product generation of the NVRs including new firmware 2.0. It’s free!

**KTEO CO. LTD. / K700-K705**

Please come to our booth to see the 2.5-megapixel CMOS captures full 1080p HD at 30fps and the 1.3-megapixel CMOS grade 720p HD at 30fps approved by H.264 Alliance. They are good enough to grab real-time HD video at 30fps and embedded IR LED function, which allow them to provide clean and clear images in low-light situation. They deliver digital high-definition video by using HD-SDI (BNC) over coaxial cable; it is cost-effective and easy-to-use for surveillance. We will exhibit our products throughout the exhibition period on April 20th.

**LUNIX TECHNOLOGY CO., LTD. / K700-K705**

We are professional CCTV products manufacturer providing various types cameras and DVRs. This year, the booth comes along with our new products-SID1, the solution of CCTV WITH SID1. Our customers can enjoy NVR HD quality by paying lower cost than IP Camera, as well, the long transit distance as more than 180 meters and total solution with SDI DVR will not fail anyone coming to our booth. It is practical and economic. It is Full HD.

**MEJON TECHNOLOGIES INC. / K519-K521**

MEJON will demonstrate the security surveillance products, featuring Smart IP solutions for network cameras, our innovative, proprietary CatchAP® technology for traffic cameras, and HD-SDI CCTV cameras. 1) H.264 Full HD (1080p) network camera series, a smarter IP solution that integrates our innovation with network capability. 2) Outstanding traffic surveillance cameras with IP capabilities. Idea for intersections, Commercial parking areas, ports, metros, railways and tunnels. 3) The HD like CCTV cameras that feature our Lumi™ III technology to bring crystal clear pictures in any light condition.

**NEOTECH PHOTOELECTRIC INC. / K16-K165**

The powerful VMS software can support unlimited IP devices and expanded server base. An incredible video management system and scalable Unix-based server can manage from 5,000 to 50,000 IP devices and supports up to 800 IP cameras with 96 viewers for home security. Alarm message system sends a SMS message or WAP Push via telecom service providers or Skype to 10 mobile phone numbers when an alarm is triggered. This is a new business model for operator, not only buy and sell. Come to visit us to see the complete construction and application!!

**NUO INC. / K104-K111**

NUO offers a truly NVR standalone—NUOTitan with local display, powerful throughput up to 250Mbps and strong Client software makes it a Must-have turn-key solution in the market! Welcome to see its first debut at Secutech booth and to actual experience its wonder by yourself. Any sample order onsite enjoys a very special discount! NUOT Titan Key Features: 1. Spot-out for live viewing 2. High throughput for mega IP cameras (250Mbps) 3. Support dual stream for mobile phone (iPhone, iPad, Android, BlackBerry). 4. Powerful web client (IE, Firefox, Safari). 5. Powerful client AP (Windows, Mac) 6. Dual gigabit Ethernet ports to separate system management and video recording
Welcome all International Buyers to the Gala at The Wok Restaurant, 3F on April 20th, 18:30-20:30! A full picture on what’s going on has never been easier. Learn about the See the performance of these new additions at the Sony booth. Getting

SMA service provider today representing on long-term dealership licensed SUNNIC was founded in 1985 to provide “A Complete Supply Chain INC. / L514-L519 SUNNIC TECHNOLOGY& MERCHANDISE Mobile DVR / GPS tracker, solution of Access control, IP cameras, full D1 include their 64Ch Hybrid NVR with CMS (Central Manager System),
provisions for high-resolution, high-sensitivity, and excellent color reproduction.
Pishon International Co., Ltd. will introduce the latest Sony DSP Effio-P for high-resolution, high-sensitivity, and excellent color reproduction. Effio-P (CCD42135G) has built-in High-Performance WDR and ATR-EK functions, Digital image stabilizer (DIS) function, built-in memory and microcontroller, 3D Noise Reduction and a slow shutter up to 512 fields. Besides this Pishon will do its long-awaited step into the future by presenting it’s first out of IP cameras. Come and see!

Welcome to SHAN’s boothK204-K209, 11F! For Secutec2011, we prepared lots of innovative technologies and whole new series products. From high-end Effio PVIS CCD camera, 1/3 to 3/1 megapixel IP camera, HD-SDI/SDI-camera, to the Standalone SDI DVR and one-click HDcctv system. We are looking forward to meet you!!!

Pishon International Co., Ltd. / M509-M513

SHANT ELECTRONIC CO., LTD. / K304-K309

PUSHION INTERNATIONAL CO., LTD. / M509-M513

PROVIDE CO., LTD. / K114-K119

Provides will showcase their full range of products with the latest ONVIF supported 2-Megapixel IP cameras at Secutec2011. On their stand, the full range will be demonstrated as working system solutions, and will include their 4CH Hybrid NVR with CMS (Central Manager System), Mobile DVR / GPS tracker, solution of Access control, IP cameras, full D1 encoder card, and compactly sized IP modules.

Welcome to SHANT’s boothK204-K209, 11F! For Secutec2011, we prepared lots of innovative technologies and whole new series products. From high-end Effio PVIS CCD camera, 1/3 to 3/1 megapixel IP camera, HD-SDI/SDI-camera, to the Standalone SDI DVR and one-click HDcctv system. We are looking forward to meet you!!!

SMAX TECHNOLOGY CO., LTD. / J811-J818

2. The best NVR-based NVR of Low Cost management system, support 4 channel IP CAM, provides recording(HD) by per channel, Event Trigger Action, Playback & Search.
3. CMSO3000W VGA-based NVR and CMSO300AP Built-in NVR version of different CMS series product can setup Multi-layer e-Map (up to 10 layers), support Google map. Multiple monitor display.

SUNHON ELECTRONICS ASIA PACIFIC/ K808-K813

Be faster, smarter and sharper with Sony’s latest HD, wide dynamic range cameras. See the performance of these new additions at the Sony booth. Getting a full picture on what’s going on has never been easier. Learn about the technology in the Sony cameras, and be awed by the display of the entire HD and new Analog range which will also find at the booth. Come on down to see a full demonstration of the Sony cameras in action.

**Camera Excellence Award**

**Do you know the World’s best pick of Excellent HDcctv and IP HD/Megapixel Camera? Let’s decide together!**

Numerous collections of HDcctv and IP HD/Megapixel camera are in the market today, but which one is the most competent? Secutech 2011 gathers the premiere HDcctv cameras and IP HD/Megapixel cameras from all leading brands at one display site and will run them under the same default environment. Displaying the image quality with the same brand/spec LCD monitor, the cameras will present their image capture power for Secutech visitors and a panel of judges to select the best performing one!

We invite “International Visitor” of Secutech 2011 to come to the presentation station of this camera contest, check their onsite performance and vote for the best one!

---

Digital/HD Surveillance Pavilion

2MP HDTV 720P PIR / LED Cube Network Cam (N8072)

As the manufacturer of IP surveillance products in Taiwan, 3S strives to deliver the best "Surveillance, Systems, and Service". With a professional R&D team, 3S focuses on offering H.264 / 2.5-Megapixel network cameras -High performance DVR and NVR -Powerful 128ch Video Management software(VMS) -Integrated all 3S devices including 512ch Central Management System(CMS). 3S team has the confidence to offer you good quality products, complete solution consultants, successful cases and on time delivery.

3S POCKETNET TECHNOLOGY INC. / N901-N903

CMOS Color HD Camera Module, HD CCTV Transmission Module

ADP CMOS color HD camera module is a compact design for HD IP Camera application and HD CCTV system. It outputs BT 1120 or YUV interface which carry the HD video signal as 1080P/30fps or 720P/60fps. The Camera Module uses a very sharp lens with 2.5X manual zoom coupled with a very high sensitive CMOS sensor, OV2715. Also a very powerful Fujitsu ISP is used to process the video signal so that it may fit the requirements (like high low light sensitivity, high dynamic range, etc.) for use in security or surveillance system. A separate HD-CCTV module used to accept, process and transmit HD-SDI video signal via traditional coaxial cable is also ready now for our customers.

Large-format Full HD CCTV Displays-RX-W42 & RX-W32

AG NeoVo brings the ideal combination of size and specs to the professional security environment. Review highly-detailed, smooth and accurate images on a bright Full HD display with AG NeoVo’s Advanced Image Platform™. Save costs and time by taking advantage of ultra-low power consumption, multiple video inputs and convenient Picture-in-Picture (PIP) options. All this, plus protective Neo™ Optical Glass, Anti-Blum™ technology, long-life screen and a durable metal frame, makes the RX-W42 and RX-W32 the most robust and advanced display choice for maximum surveillance performance.

AG NEOVO / M140-M143

WIRELESS GSM&SMS ALARM SYSTEM

CG-8800G8 GSM/SMS alarm system utilizes high quality GSM module to achieve intelligent remote transmission and remote control by phone and SMS operation. It breaks the limit of PSTN telephone transmission. Humanization design of bulk-in voice messages recorder, aligning zones self-definition and SMS notification, meets what you need. This affordable and cost-effective system can be widely used for apartment, villa, office ,store, shopping center, parking garage or other residential and commercial buildings. Call us now to enjoy the excellent performance and easy operation!

ASIA SECURITY TECHNOLOGY LIMITED (CHUANGH ANIMAL) / N918, N920

LED CCTV MONITOR

Unique 4:3 LED CCTV MONITOR leading the edge of security surveillance displays. Energy saving up to 40%, true color performance, longevity and more detailed 1000:1 higher contrast ratio. This is exactly one of the best CCTV monitors you are looking for.

AUSPICE STAR CO., LTD. / N102-N1015

4,8,16CH H.264 GIU DVR

The Economical High Performance H.264 DVR operate on embedded Linux for maximum reliability. The H.264 SoC processors utilize the H.264 compression technologies with outstanding picture quality, video streaming, large storage & more device interface. The Pentaplex real-time performance DVR was come with advance CMS software, every channel has built in with lightning protection, 400fps recording (4,8,16,16ch), support 1/4-1/36 segment playback, H.264 output™, multi-language supported, iPhone/ BlackBerry/ PDA/ Windows Mobile supported.

BL TECHNOLOGY INTL LTD / N040-N041

Hardware H.264 Codec Capture Board

DVI-D provides H.264 to the camera to send 1 to 32 channels of video, Audio, and Sensor inputs and 1 to 8 channels of relay outputs. The boards display and record maximum 960 fps at CIF, Half D1 and D1 resolution,

Hardware H.264 Codec processor. DVI-D supports IP cameras, Mega pixel IP cameras, HD-CCTV, and analog cameras. DVI-D provides software support to access and control remote DVR system, which is including CMS (Central Monitoring System), Web client, and Mobile Client (Windows Mobile Phone, iPhone, and BlackBerry). The software supports video analytic functions such as intrusion detector, people counting and ETC.

CHANCEC CO., LTD. / M1018, M1019

VIDEO OPTIC CONVERTER – 16V1D- DDT -D-T/ R1602DSF

Simultaneous transmission of 16-ch one way video signals & 2-ch one way multiprotocol data over 1 or 2 single core optical fiber. It features optical automatic gain control(OAGC).The system accepts analog baseband input signals and converts them to digital format for transmission, assuring high-quality video output at the receiver. The function of network management is optional, and the running status of the system can be monitored by inserting just one network-managing card.

CHANGZHOU HENGSONG ELECTRONIC S&I CO., LTD. / M1127

HD IP SPEED DOME CAMERA - HB-16SPA-II-180D1

The high performance and powerful media, single SOC chip, built in (ARM+DSP) and high-speed video image processing module, extreme CCD perform sensors, used to the standard H.264 main profile compression algorithms in a thin strip of its high quality image of transport and to support the UPNP function, convenience to plug-and-play, built-in web server, Use standard IE browser the user with a real lock of the prison and set up administrator.

CHANG ZHOU HONGREN TECHNOLOGY CO. LTD / L633-L635

Optic fiber converter

FTM-100 Media converter could transmit over single or dual fiber, single mode or multimode fiber. This product could achieve point to point, Bus or looped network etc. network mode.This product has high transmission speed and flexible network mode.

CHANGZHOU HUALONG COMMUNICATION TECHNOLOGY CO., LTD. / N107

Laser Intelligent Servo High Speed PTZ Camera

• Specific laser camera to penetrate obstacles of which ordinary camera is insurmountable, such as forest or camouflage nets. • The laser night vision range over 400 meters. • Laser with intelligent servo function, it not only incorporated with smart zoom camera synchronization, but also incorporated with an independent fine-tuning, adjusted with an integrated optical axis of external agencies. • It’s widely used at night, harsh environment, long distance, large-scale real-time monitoring of the occasion. • All-weather environmental design, protection grade up to IP68,360° continuously rotation, upward angle up to 180°. AC220V 6 cruising tracks, 128 preset positions.

CHANGZHOU MINKINGS ELECTRONICS CO., LTD. / M606-M611

HD-SDI Digital Video Recorder

CITRIN Co., Ltd publicly released 4ch HD-SDI DVR which supports max. 120 fps at 1080p 30 (V7304) last year. This product is the world’s first Full-HD Realtime recorder and still no other products have equivalent DVR. V7294 is Hybrid type HD-SDI DVR that users help to connect/record 2 HD-SDI Cameras for special site requires precise image plus 14 analog inputs that support 15 frames at D1 each channel. Cost effective HD-SDI DVRs are launched at this show. V7104 supports 60 fps at 720p 60 with remarkable price down. It will lead the trend of HD-SDI market to be more popular.

CITRIN Co., LTD. / N112, N1114

Smarty – Smart Black Box (Drive Recorder)

Smarty is the name of the most advanced drive recorders. Smarty contains Camera, G-Sensor, Audio In and GPS module (Option) and can record to SD card by shock, acceleration and manual. You can find full solutions of Drive Recorders with Smarty (from single channel Driver Recorder(BX0000UBX000) to 4ch Drive Recorder(BX4000)). With its leading edge technologies, ‘Smarty’ will secure your life and money as your Drive Partner.

EDISecure® XID3000 Retransfer Card Printer

The EDISecure® XID3000 retransfer Card Printer is our latest universal and reliable printer for the complex and sophisticated printing and encoding requirements. It comes standard, single sided printing and it’s upgradable to double sided printing, bend correction, magstripe, single sided printing and it’s upgradable to double sided printing, bend correction, magstripe.

H.264 8/4CH Mobile DVR, DM-1708/1704

The DM-1708/1704 series are advanced mobile DVRs designed for use as a surveillance system for all types of vehicles. This mobile DVR series applies the latest H.264 compression technology for a longer record time and DVD quality video. It features a g-sensor, turning alarm, delayed on/off function, and an anti-vibration system. Built for a variety of vehicle standards, DM-1708/1704 are 10cm in size, support GPS routing with Google Maps, and can support with up to 2TB of storage size. Other features include event and time lapse recording, intelligent motion detection, and remote access through mobile phones and IE browsers.

Cat.6A PowerMAX+ Solution Product

Introduction

The DINTEK PowerMAX+ range of UTP cable products have been designed to and S/FTP product have been designed to support 10 Gigabit ethernet(10GBase-T), Installed as an end to end solution, and warranted under our DCl installer program for 25yres, DINTEK PowerMAX+ Cat.6A product are an obvious choice for providing an optimum speed, structured cabling solution, which delivers superior performance where speed, reliability and future proofing or long term tenancy is required.

PS-16H (16ch H.264 Standalone DVR)

Our PS-10H is the 16ch H.264 Standalone DVR. It has the better picture quality and stability. It is the right DVR for S.I business as it supports POS, 4 SATA HDD (3H), 4x Sp Slot output, 16ch Audio etc. Testing is believing. Please enjoy our quality through our extensive range of models.

Dome Covers with Harden Coating

Harden Coating refers to film the PC or PMMA dome cover with an organic silicide, which improves the Exview HAD CCD II 960H CCD image reproduction of colors. 30 pcs high-performance IR LEDs, easy adjustment for preferred focus, and extensive functionality are suitable for 24/7 surveillance.

4CH/8CH Full HD Box Camera

These OEM/ODM mini IR speed dome cameras are designed for 1/3” Sony 18x / Samsung 10x / China 10x / Taiwan CCD 600TVL, built-in 30pcs IR LEDs projects 25-30M, 360° continuously rotation, upward angle up to 90°, Chinese English OSD menu,6 cruising tracks and presettable positions and stay-time. Many function such as IP Network can be customized. They offer 10 selectable color covers (red/orange/yellow/green/blue/indigo/purple/black/white/silver) and three types for wall-mounted with vandal-proof, ceiling-mounted with vandal-proof and ceiling-mounted installation. Products are applied widely for indoor areas such as shopping malls, factories, hospitals, and etc. with very competitive price.

Fine Eye Series (HDcctv Camera)

The KTBC Fine Eye Series provides a high definition digital image performance using the 2.1-megapixel CMOS captures full 1080p HD at 30fps and the 1.3-megapixel CMOS grabs 720p HD at 30fps. They are good enough to grab real-time HD video at 30fps and provide clear and clean images in low-light situation with IR LED function. Fine Eye Series deliver digital high-definition video by using HD-SDI (BNC) over coaxial cable, it offers successively greater cost effectiveness and easy-to-use for surveillance. To use in various situation, there are box type (KPC-HDX331C/M), vandal proof dome types (KPC-HDXV/N/V500) and right view type (KPC-HD707F) in Fine eye series.

KTBC CO., LTD. / N700-N705

Anti-vibration system supporting 3G & Wi-Fi connections

TWITTER, anti-vibration system, approved by US Military Standard, MIL-STD-810F 54.5 C vibration test. TWITTER is able to support 3G & Wi-Fi connections and protect the system from crash when suffering from shake or any other regular/consistently vibration. It is a PC-based All In One System, which can integrate as many functions as possible, such as 3G, Wi-Fi, Bluetooth connections. TWITTER is the best solution for Car PC, mobile solution, industrial application and Server. We provide stable and reliable protection design of TWITTER to protect and maintain your treasure system.

LEX COMPUTECH CO., LTD. / N912-N915

V3C000 – Body Worn Video System

V3C000, a resilient TWO CAMERA surveillance system, Main portable waterproof DVR in compact size with built-in 3.5” LCD for ease of viewing, primary camera are equipped with a variety of mounts and infra red LED enabled secondary chest camera for low light situations. Body worn cameras have been launched for law enforcement across UK, particularly useful with domestic violence, anti-social behavior and alcohol-related crimes. A safety, justice and reassurance tool for law enforcement.

LONG IN TECH CO., LTD. / M1220-M1223

Vandalproof Mini 10X Speed Dome Camera (LPTA10XSG)

Vandalproof Mini PTZ Speed Dome Camera (LPTA10XSG) offers successively greater cost effectiveness and easy-to-use for surveillance. To use in various situation, there are box type (KPC-HDX331C/M), vandal proof dome types (KPC-HDXV/N/V500) and right view type (KPC-HD707F) in Fine eye series.

MINTRON ENTERPRISE CO.,LTD. / N712-N715

MDC-H4290C (2.0 MP HD CCTV Camera)

Micro Digital’s MDC-H4290C is 2.0 Mega-Pixel Camera over Coaxial Cable (HD CCTV Camera). One of the biggest benefits to use HD CCTV Camera is that you can enjoy megapixel video resolution without doing complicated works required for using IP megapixel camera. It’s just plug and play. Features of MDC-H4290C: Panasonic 2MP CMOS sensor / SMPTPE 292M Compatible / Excellent Video Quality of 1080p 30fps / Supports Composite Video / 2D/3D NR / Digital Zoom (X62) / 3-Auto (AE/AV/BAL/WB) control / OPC (Dead Pixel Correction, Live & 1024 Static) / BLC (Black Level Compensation : Digital Clamp) / CI(Color Interpolation) / LSC Lens Shading Correction / ACC

MICRO DIGITAL INC. / L637-L657

3G-SDI Real-time Megapixel Video with Value-added Functions

The latest 3G-SDI 720p/1080p camera is available with value-added functions, such as XDR (Expanding Dynamic Range), Fog Reduction, 2D/3D Noise Reduction, E-Jitter, IR-Cut Filter, Peak Level IRIS, BLC, Motion detection, Fisheye Distortion Acorrection and Auto Gain Control to adapt difficult monitoring environments. XDR is one of enhance dark scenes and suppress highlight based on histogram with adaptive tone mapping (ATM) which is the technology used in Wide Dynamic Range (WDR). Simultaneous video outputs—digital and analog signal, supports six types of formats with 720p at 50/60Hz, 1080p at 25/30Hz, and NTSC/PAL for satisfying more needs in the high-definition market.

MINTRON ENTERPRISE CO.,LTD. / N712-N715

Solar + PoE Battery Charger

The BC-5012 series are used in 12V Lead Acid battery charging with Solar panel and PoE. The input voltage range of Solar panel is 18V to 38V and the POE is 18V to 57V. There are two outputs, one is at rear terminal that always is 12V/2.1A and another one is 4A/5 up that can be 12Vdc, 18Vdc, 24Vdc and 48Vdc etc of PoE output. The BS-5012 series has many protections for safety issue.

NVP2400

Our brand new mega-pixel CMOS sensor ISP, NVP2400, uses groundbreaking technology to offer improved image quality. This ISP uses all of our extensive experience in video surveillance industry to offer a level of imaging performance not previously possible in other ISPs. It support most of the output formats including IP camera, HD-SDI let alone high-end analog CCTV application. It performs outstanding image processing with embedded fast 8051 MCU and SDRAM. It provides the stable and high quality video output which is suitable for security camera. It receives 12-bits parallel or sub-LVDS CMOS sensor inputs and provides BT.656, BT.1120, YC 16bits and SMPTE 292M Compatible / Excellent Video Quality of 1080p 30fps / Supports Composite Video / 2D/3D NR / Digital Zoom (X62) / 3-Auto (AE/AV/BAL/WB) control / OPC (Dead Pixel Correction, Live & 1024 Static) / BLC (Black Level Compensation : Digital Clamp) / CI(Color Interpolation) / LSC Lens Shading Correction / ACC

White Light LED Auto Motion Detector Camera

This product will detect the motion of the object automatically to frighten those thieves with light meanwhile catch the key moment! With its intimidation function, it’s better than other hidden product! Since it’s IP55 Weather-Proof certified, it’s perfect for outdoor usage! It can be installed at the entrance of public place as welcome greeting. For house and apartment, it can keep you away from any possible dangerous by saving time of standing outside of the door finding the key under darkness! Light up timing, lighting time and sensitivity are adjustable to meet your needs.

NIMAX TELECOM CO., LTD. / N1022-N1024

**OFK-IR799/OM Sony Effio 700TVL IR Night Vision Camera with OSD61CR**

The OFK-IR799/OM IR Night Vision Camera adopts a Sony 1/3" HD CCD image sensor and a complete Effio solution to achieve up to ultra high resolution 700TVL. Built-in 5pcs II 8 IR-LED with 9-22mm varifocal lens, max 50-60m working distance while LED on. External focus and zoom adjustable, cable through bracket. OSD function is controlled by cable. It supports Mechanical IR-Cut Filter and 8 languages including Chinese, English, Japanese, French, German, Russian, Spanish, Portuguese. Dual voltage DC12V/AC24V is available.

**OFK TECHNOLOGIES COMPANY LIMITED / N524**

**OSD8217 HD/SDI Tx/Rx Pair**

OSD8217 can be used for any broadcast application to send HD/SDI signals from 19.4Mps to 1.485Gbps over fiber optic cable. OSD8217 also features monitoring port on both the transmitter and receiver unit. OSD8217 is available with built in bypassable automatic reclocking at 143Mps, 270Mmps, 360Mmps, 540Mmps and 1.485Gbps. OSD will be demonstrating a complete range of HD/SDI series products during Secutec 2011 in Taipei. Please come and discuss your requirement with our friendly staff.

**OPTICAL SYSTEMS DESIGN PTY LTD. / N1004, N1006**

**FTD1100DMicro**

The FTD1100Micro series supports optical transmission of 8-bit PCM coded video and one bi-directional data through one multimode or singlemode optical fiber. It is currently the smallest transmitter/receiver pair among all OT Systems products. The transmitter only occupies limited space for easy installation within most camera housings.

**OT SYSTEMS LTD. / M920, M922**

**Panacom Full DVR Range with Inclusive User App**

Each surveillance system is equipped with an outstanding feature: "The new Huggy Compact Dvrs are upgradeable so that they adapt to changing user needs." *Rekon is a Rechargeable DVR that is vibration-resistant and a guarantee of robustness of system, and Support your requirement with our friendly staff.

**FD2-950 Full HD Surveillance System**

FD2-950 is a Full HD surveillance system designed for the most demanding applications. The system includes a high performance Full HD (1080P) matrix controller, 16ch D1 stand alone DVR solution, system enables customers to save tons of CAPAX by bridging the fluid video transmission effect. Built-in Web Server allows users to conveniently carry out remote control via Internet Explorer. Furthermore, central management software can be used for integrated surveillance and management of multiple network cameras, so it is very easy to build large video surveillance system.

**SHENZHEN TONGLI INFORMATION TECHNOLOGY CO., LTD / N719, N721, M920, M922**

**16ch D1 real-time DVR solution**

16ch D1 stand alone DVR solution, system support 400/480pbs. H.264 recording for D1 and 8ch real-time playback. H.264 compression ensures better image quality and lower code stream. Powerful CPU techniques allows better power consumption, a guarantee of robustness of system, and Support your requirement with our friendly staff. The images you see and record can only be as good as the images produced by your CCTV security cameras. So, what is your choice? Would you like to live with safety under the RJ’s Security DSP camera system? Here is RJ for you.

**SN-IRC5920AHSDN**

**Intelligent IR technology from Sunell gives better images than ever.** Combined with the Effio-E DSP for the best possible resolutions and functions. We use a special technique where the monitoring of over exposed images due to too highly powered LEDs is constantly adjusted to give that all important visibility level. This benefits the LEDs prolonging their life, generating also less heat, and thus a more reliable product. Unlike others we do not just change the AGC on camera which would increase the noise levels on the picture.

2 Mega-Pixel HD 720p/H.264 IR Dome Camera (ALC-9371P)

We are proud to announce our newly-released 2 mega-pixel IR dome camera - ALC-9371P is designed for both in/outdoor applications. It adopts a high performance 1/3" megapixel CMOS sensor (1600x1200) with H.264/MJPEG codec and 720p HD image. Furthermore, it has Megapixel Varifocal Lens (3.6-13mm) with DC Iris, Mechanical ICR and IR 15M. ALC-9371P supports 2 way audio, 3GP, built-in PoE (802.3.at) and SD card slot (SD/SDHC) for local storage. With IP66 and vandal-resistant certification, it makes ALC-9371P to be the most popular indoor/outdoor 2 Mega-Pixel IR Dome Camera.

**AVM804, 1.3 Megapixel IVS Network Camera**

AVM804, a 1.3 mega-pixel network camera, functions like a miniature of traditional surveillance system with one IVS DVR, one DBN camera 8 one PIR device, but it is simpler, lighter, more exquisite, easier-to-setup, and the most important of all, more convenient to access from any web page, any smartphone (iPhone or android), or any computer. The 1280 x 720P HD quality picture this device will provide remarkable high crisp quality pictures and recordings that can only be found in more expensive devices. Also with features like 2GB built in memory , RTSP , POE, Motion detection, schedule recording, RSS notification, My Web & Ez Blog Technology, CNT, this device will make your life much easier and customization has never been easier.

**EV8180F 5 Megapixel IP Box Camera**

EV8180F which is a high quality HDTV camera with high-definition, ideal for 24H video surveillance systems where sharper and greater image details are a necessity. It provides 5M resolution at 10fps, perfect for securing areas where high quality identification is needed, such as access controls, airports, and shopping malls. The EV8180F with 5M resolution delivers 16.4 times the resolution of a conventional VGA camera. Furthermore, The Evrovision EV818F in addition to offering intelligent capabilities such as video detection, audio detection, and alarm notification also provides up to 8 independent streaming RDIs (Region-of-Interest) which dramatically reduces the network load.

**Endeavor HD+SD 4H4 DVR, EHHS200 and EDHS240**

Endeavor HD+SD 4H4 DVR is a powerful, full featured, embedded hybrid DVR. It can process that total of 32chs from 4 HDCCTV cameras, as well as the video from 4 analog cameras, for live viewing and H.264 recording at HD resolutions of 1080p or 720p, plus real-time 30fps at DI recording capability on all 4 analog cameras. Besides the EHHS200 box camera, we also launch two HDCCTV dome cameras, EHHS2500 and EDHS240, simultaneously. The variety of Endeavor HDCCTV solution enables you to set up your surveillance system flexibly.

**iDVS-01 1 Channel H.264 Intelligence Video Encoder**

iDVS-01 (Intelligence Digital Video Server) not only offer highly-effective H.264 Video but also can analyze and identify at front side when the rule of alarm event were set up. Once event is triggered, iDVS-01 will transmit a video and snapshot with object frame and send alarm message to Alarm server and NVR.

**EMVI200 12 Channels Mobile DVR**

EverFocus EMVI200 mobile DVR is based on H.264 compression technology. The choice of 8 or 12 camera configuration with real-time recording (30fps/640x480 resolution, frame rate independently configurable over cameras) along with comprehensive features including embedded 3-axis sensor function enable the almost universal application of this DVR series. EMVI200 supports various interfaces such as 3 x USB / RS-485 / RS-232 / GPS port and optional control panel / panic button / CAN bus. Molex connectors enhance anti-shock and vibration mechanism. EMVI200 also supports wireless 802.11 as an option and can be equipped with an explosion-proof black box to keep the last minute recording clip for testimony.

**EVERFOCUS ELECTRONICS CORPORATION / M708-M716**

**COMPRO PRO RS-2212 NVR**

RS-2212 is a dual-bay Network Video Recorder designed for surveillance applications in small and mid-sized businesses. It is capable of recording 12 megapixel channels simultaneously while providing full PTZ control and streaming live view from cameras. Its embedded robust Linux system is highly reliable and virtually invincible from virus and hacker attacks. The RS-2212 offers advanced data backup and protection features including Raid-0 and Raid-1 support and a one-touch backup button for speedy and easy data backup to USB storage devices. Better yet, the intelligent and intuitive Compro Wizard is also coming to the RS-2212. With it, setting up the device is as easy as it is on all Compro IP surveillance products.

**Axxon INTELECT Enterprise 4.8 - Enterprise-wide platform for fully-integrated vertical and horizontal solutions.**

Remarkably advanced IP-based physical security management platform, which provides a single environment that combines intelligent video analytics, universal IP connectivity to network cameras and access control points, and event-driven automation capabilities. Out of the box, Axxon Intellect provides you with a distributed security system that can be easily integrated with any third-party software and hardware. Imagine the possibilities.

**DVI-2140, the Vandal-Proof 360p IR Dome Camera is built with Sony "Effio-E" and "900H CDD viewing."**

**Endeavor HD+SD 4H4 DVR, EHHS200 and EDHS240**

Endeavor HD+SD 4H4 DVR is a powerful, full featured, embedded hybrid DVR. It can process that total of 32chs from 4 HDCCTV cameras, as well as the video from 4 analog cameras, for live viewing and H.264 recording at HD resolutions of 1080p or 720p, plus real-time 30fps at DI recording capability on all 4 analog cameras. Besides the EHHS200 box camera, we also launch two HDCCTV dome cameras, EHHS2500 and EDHS240, simultaneously. The variety of EverFocus HDCCTV solution enables you to set up your surveillance system flexibly.

**FW1173-MP**
Flexwatch is pleased to introduce FW1173-MP which will open new era of IP camera! With utmost in picture quality powered by Sony’s latest sensor technology, FW1173MP can provide unparalleled visibility at low-light conditions. As for recording function with micro SD, FW1173-MP identifies exactly like our market-proven NVR series. Also, FW1173-MP comes with optional i802.11xg WLAN connection for flexibility.
FLEXWATCH / K24, K25

**Thermal Imaging Security Cameras Turns Night into Day**
Thermal cameras compliment and complete your security camera network by giving you the power to see threats invisible to the naked eye, turning night into day. Thermal security cameras make images from the heat energy that is around us all the time, not from reflected visible light, giving you true 24/7 imaging capability without lights or illuminators. Thermal energy penetrates atmospheric obscurants better and farther than visible light, allowing you to see what’s out there through haze, smoke, dust and even light fog. Day and night, through good weather and bad, close up and far away.
FLIR SYSTEMS CO., LTD. ASIA PACIFIC HEADQUARTER / K201, K203

**PIXIM TECHNOLOGY OUTDOOR IP67 CAMERA**
Pixim’1/3” DPS Chip Sensor - 700 TV Lines resolution – 8-20 Varifocal Auto Iris Lens - Complete On Screen menu - 120dB Max. 102dB Typical Highest WDR on the market – 42 Pcs from Kodak, Micron and Sony with resolutions from 640 x 480 to 16 Megapixel. We offer wide variety of VisionCamera/FireWire, USB, Camera Link, GigE and Surveillance Camera (IP, HD-SDI) series.
IMI TECHNOLOGY, CO., LTD. / K101

**High Resolution Super Long Focal Length CCTV Lens**
The first High Resolution long focal length CCTV lenses, used for 24hours long distance surveillance with super clear picture. A lot of optional functions, such as penetration function, preset function, zoom function etc.
FUJIAN FORECAM OPTICS CO., LTD. / K240-323

**NVR Software System**
CMS and NVR System- support multi-megapixel streaming, multi-core CPUs, PTZ, live, instant/synchronized playback simultaneously, 512X retrieve, IE web based integrated with Google map, smart phone access; provides multi- channel, multi-function, and real time function.

**Hikvision DS-2DF1-572 1.3-Megapixel Network Speed Dome**
The DS-2DF1-572 1.3-megapixel network speed dome delivers exquisite surveillance video with resolution of up to 1280 x 720 in both preview and playback by adjusting 1/3” Sony progressive scan CCD and H.264 video codec, while supporting dual stream capability to BWB auto switch. With progressive scan technology, this product is able to capture a high-definition image utilizing a full 540 TV Lines panoramic view of moving object in the shortest time. By using the mouse to click on the objects in the camera view, users can manually control the camera to follow objects which trespass the monitoring areas, as well as zoom in to get access to the scenes closely.
HIKVISION DIGITAL TECHNOLOGY CO., LTD. / J112-J121

**V6221-G Series 2.0 MP H.264 Network Zoom Camera**
Infornova’s new V6221 series 2.0 Megapixel H.264 IP cameras feature a 10X optical zoom lens with a 2.5” progressive scan CMOS sensor. The 10X zoom captures the smallest details in varying light conditions giving excellent video images resulting in the best evidence from surveillance applications. The H.264 and MPEG4 video compression formats give you excellent image quality with low bandwidth networks and limited storage for archiving. Additional features include an optional SD card for local recording (16GB), bi-directional audio, multiple options to process alarms and privacy masking. The camera can use power over Ethernet (PoE) or a separate power supply.
INFINOVA (HONG KONG) LIMITED / J329, J330

**iMege B2210**
iMege B2210 series Full HD IP cameras are integrated megapixel sensor designed with multiple codec streaming mechanism as a future-proof system that allow users to optimize streaming efficiency and guarantee uncompromised image quality with lower bandwidth and better storage utilization. Incorporating superior full HD video quality with intelligent functionality and software, the B2210 series cameras are suitable for most challenging environments or applications where accurate identifications and detailed image are required. These cameras are also embedded with 802.3af compliant PoE, ePTZ and other exceptional features that provides reliability and the best performance for even the toughest installation.
INGRASY TECHNOLOGY INC. / K120-K123

**IPMIS**
IPMIS allows user to manage the setup of DVR (System Setup / Recording Setup) and retrieve the recording data of DVR from remote site. Also, IP camera can be recorded and managed by powerful features. Through E-Map, users can notice Alarm, Event easily and allow to control the alarm.
ITY SECURITY CO., LTD / K700-K705

**IPCorder KNR-200 series**
Manage/Record/View up to 16 IP cameras. Standardized and tested compliance with NVR solution works on Windows, Linux and Mac OS. You can access your IP camera system, including latest megapixel resolution cameras, from anywhere with your favorite Internet browser. IPCorder supports ONVIF standard protocol and also supports various IP cameras from different manufactures. IPCorder offers high stability and no viruses, no spyware. Unique firmware gives you easy set up of the unit and connected devices. Low power consumption saves environment and your operating costs. IPCorder KNR-200 is dedicated to use in small offices, manufactures, education and homes. Made by KOUKAAM.
KOUKAAM A.S. / J211-J216

**WPC-332-D10**
Our WPC-332-D10 is a Web-based Programmable Controller built in uLinux OS which has DP19, DP4, Micro SD, RS-232/485, RS-422/485, USB, RCU, buzzer and USB host *2 (for memory) which enable users to convert signals to Ethernet, Wireless LAN (Wi-Fi). This module is perfect for highly distributed applications that need a direct connection to an Ethernet network. This product is not only a standard HID, but also an intelligent system design with a multitude of communication protocols which suit the multitude of requirements for faster speed and more power.
LANREADY TECHNOLOGIES INC / K318

**8 Port 10/100/1000 Mbps IEEE 802.3at High Power PoE Switch**
The growth of Power-Over-Ethernet for IP surveillance market has been increasing with requirements for faster speed and more power. The 8-Port 10/100/1000 Mbps IEEE802.3at High Power PoE Switch is the solution providing Gigabit LAN speed critical to megapixel and H.264 full HD image transmission along with Wireless IEEE802.11n up to 300Mbps. It can generate up to 39W supplying power for motorized (Pan/Tilt/Zoom) IP camera, Outdoor Base Station and Video Phones, with the addition of up to 15.4W PoE over current protection. A Screw Terminal block for external power system is also available for back up via battery or solar power solutions.

SHANY ELECTRONIC CO., LTD. / K204-K209

**Plug & Play IP Camera**

The StarVedia IC2007W megapixel IP camera is a high performance network camera with state-of-the-art H.264 video compression. The H.264 code compresses the mega-pixel high resolution 1280x800 images into a lower bandwidth video stream suitable for highest quality remote video surveillance. The WPS is supported on IC2007W for easiest wireless setup. No more SSD or encryption key configuration is needed. Users could record video to the Micro-SD card up to 32G bytes, record to the NAS storage device on the network or record to the computer with the free bundled management software.

**STARVEDIA TECHNOLOGY INC. / J525-J528**

**NVR2000 Storage-integrated NVR Solution**

The Surfcon NVR2000 series network video recorders are installation-free storage-integrated recording appliances powered by Surfcon’s Optimized Video Storage Technology (DVST). NVR2000 solutions give our partners a reliable and efficient platform for megapixel video recording, with scalable hardware and enterprise RAID architectures supporting over 300 channels on unified hardware, and provide options for up to 551 TB of integrated Hardware RAID storage. The NVR2000 solutions are designed as plug-and-play performance-oriented packages that are ideal for high retention period mission critical IP video surveillance applications, while easing installation/configuration overheads for our SI partners.

**Synology DiskStation DS361xis**

Synology DiskStation DS361xis provides professional IP-based video surveillance, combining the functionality of advanced network storage and NVR. Synology DS361xis makes it easy to view live feeds of up to 36 channels at once, or recorded events remotely, supports over 700 IP camera models from leading brands, up to 500megapixel resolutions, and is compatible with ONVIF and PSIA industrial standards. DS361xis can be expanded up to over 100TB effortlessly and cost-effectively, support your ever growing storage need. Synology provides periodic complementary OS updates that enhance functionality and improve management.

**SYNOLOGY / K1221-K1223**

**TeleEye Turnkey HD Surveillance System**

TeleEye Turnkey HD Surveillance System is a complete end-to-end solution which includes MX HD Cameras, sureREC HD Recorder and sureSIGHT Video Management Solution. This one-stop-shop approach ensures seamless integration of MX Camera systems with multi-stream compression technology and HD SMAC-M which provides multiple independent streams covering different bit rates for HD video. The users can view live video via LAN, broadband and mobile networks whilst streaming coverage different bit rates for HD video. The comprehensive camera range and video management solutions allow users to tailor-make the system on site. The pre-configured network setting makes the system ready to use on site. The comprehensive camera range and video management solutions allow users to tailor-make the system on site. The pre-configured network setting makes the system ready to use on site.

**TELEYE HOLDINGS LIMITED / K900-K903**

**Hybrid DVR**

With Telepeer authentic Hybrid DVR you can enjoy the maximum flexibility of using any type of analog camera and Telepeer-brand high resolution Megapipe, VGA, CCD. IP cameras, allowing you to easily fulfill an installation of maximum up to 48 channels in any industrial and harsh environment. Telepeer Hybrid DVR comes in 4 SATA and 8 SATA HDD for larger storage requirement, is pre-loaded with Central Management System allowing for remote management and control, needs no IP configuration, allows intelligent Motion and Sensor detection for recording only when activity or relay is detected, guarantees frame rate from 1 to 30 frames per second (fps).

**TELEXPER INTERNATIONAL INC. / K400-K403**

**VIVOTEK H.264 3-Megapixel Fisheye Network Camera FE8171V**

VIVOTEK FE8171V is a high-resolution fisheye type network camera of VIVOTEK SUPREME Series. With a 3-megapixel CMOS and its 180° wide angle lens, FE8171V can provide a 360-degree panorama view with exceptional details and superb megapixel image quality, which is the best choice for applications needing wide area monitoring such as airport, shopping mall and much more. With high performance and compatibility optimized performance. The FE8171V offers high-quality video with resolution under up to 12 fps @ 2048x1536. In addition, it incorporates functions including IP66-rated, tamper and vandal-proof housing, multiple simultaneous streams, tamper detection, DNS/IPv6 compliance for professional mobile surveillance, 802.3af compliant PoE, and SD/SDHC card slot.

**VIVOTEK INC. / J112-J124**

**M12VM0401IR**

With IR correction and 2 Megapixel, M12VM0401IR is supporting high definition IP surveillance for Day & Night applications. Wide focal range from 10 – 40mm provide high resolution image for various AOV requests. Optical design on IR correction protect the image from focus shifting between visible light and near IR light. Design for big image format, well supporting 1/2", 1/2.5" and 1/3" sensors which are popular in IP surveillance.

**XIAMEI LEADING OPTICS CO., LTD. / K252, K257**

**PoE Power Meter PPM-100**

PPM-100 is a handheld power tester for the applications of Power over Ethernet (PoE). It can perform the on-site test and measurement of the running voltage and the supplying power available for the PoE powered device (PD) at the end of Ethernet cable terminal in any length.

**YODA COMMUNICATIONS, INC. / K1319**

**Outdoor Wireless 5GHz & 2.4GHz TDD Bridge**

YOKO TDD Bridge Series, IP67 Industrial Wireless Outdoor Access Point, is an ideal solution to extend wireless signal coverage in harsh environment. The Bridges provide solutions in unlicensed and managed frequencies, such as 2.4GHz or 5.8GHz spectrums. With the TDMA (Time Division Multiple Access) technology, YOKO TDD Bridge Series is able to provide communication range of up to 50KM, and aggregate data rates of up to 50Mbps. Due to above significant features, YOKO TDD Bridge Series is recommended to cooperate with high quality IP camera by using built-in IP camera for HD camera support and reliable HD surveillance video in long distance.

**YOKO TECHNOLOGY CORP. / K506-K511**

**Zavio F7210 2 Megapixel HD Box IP Camera**

Zavio F7210 is a 2 megapixel HD (1080P, support H.264 at 30 fps) box IP camera that offers outstanding video quality and exceptional value. F7210 supports day & night function with automatic IR cut filter, and enables the users to select H.264, MPEG-4, or MJPEG compression codecs. It also provides two-way audio support of a built-in microphone. Built-in Micro SD/SDHC card slot for local storage and bundled with free 32-channel recording software and web-based surveillance software, it can provide complete recording solution to enhance environment safety.

**ZAVIO INC. / K200, K202**

**IVS-200**

Zero One Technology Co., Ltd., a leading supplier of intelligent video surveillance edge solutions and security systems for specialized vertical markets has announced to offer a ready-to-deploy video analytics enabled speed dome/PTZ auto tracking solution. The speed dome/PTZ camera auto tracks the object (a vehicle, a person, or an object) by using an IVS-200 which analyzes the scene in real time and a Zero One’s security management platform controlling the camera seamlessly. Zero One’s highly-integrated solution is ready for the deployment at public transportation, retail stores, and facilities. IVS-200 smart edge also earns OV Ready PREMIER certification.

**ZERO ONE TECHNOLOGY CO., LTD. / K013, K014**

High capacity iSCSI storage for IP Surveillance
Arena Janus II iSCSI RAID solutions are perfectly suited for the IP Surveillance applications, which can be easily implemented in the network surveillance infrastructure. Embedded with 4 x 10Gb iSCSI interface, the SS-4503E (2U 12 bays) and SS-6603E (3U 16 bays) could be scaled up to 120 HDD installed, and protect the stored images through various RAID levels. The products are applying latest technology and recognized by worldwide surveillance partners as High Capacity, High Performance and Cost Effective solutions. For more information visit website www.maxtronic.com
MAXTRONIC INTERNATIONAL CO., LTD / J918, J920

Plustek NVR Slim380
Plustek’s innovative standalone Smart NVR Slim380 is written in virus-free Linux code and surpassed the current market existing transmission speed limit by adapting the “Dual Giga LAN” interface. This feature allows users from all over the world to go through a double GIGA tunnel rather than the conventional standalone and PC-based NVR that can increase the relative streaming quality. The embedded eight port switch allows user to connect the device to an external monitor and all operations can be used to monitor up to eight streaming live views without spending another dime on those costly hub/router/nor switches; moreover, we even include a standard 1TB 2.5” hard drive, making the device ready for plug-n-go!
PLUSTEK INC. / K1216, K1218, K1220

UM7400 series Digital Video Recorder
UltraTracker, a Taiwan professional Stand-Alone DVR manufacturer, with 10 years well-known worldwide OEM/ODM experience, has strong R&D force with great capability of designing FPGA chips to meet your various market demands. Crystal Clear H.264 Recording, pin sharp playback image, Mac & iPad operating system and PTZ camera control supported — UM7408 offers a truly outstanding recording solution that you and your customers will love!
ULTRATRACKER TECHNOLOGY CO., LTD / N200-N203

Hybrid HD-SDI DVR
No need to use IP cameras when you can achieve the same HD quality without replacing the coax. There is no network to set up, no bandwidth issues to deal with...just replace the existing SD analog cameras and DVR with HD cameras and HD-SDI DVR. HDCCVT is a new CCTV video surveillance system using serial digital interface (SDI) transmission, which is used by the broadcast industry for transmission of HDTV signals digitally over coaxial cable. SDI is widely used and accepted throughout the broadcast industry. SDI transmission is a standard for transmitting 720P and 1080P video over coaxial cable, uncompressed and non-packetized.

Access Control/ Biometrics/ RFID Pavilion

Smart Ethernet Multi-door Access Controller
SEMAC, a most innovation, outstanding newly presented access controller, independently manage a single door bidirectional (in and out) or dual doors-single direction (in or out), has creatively provided a brand new vision of access control technology to the world. SEMAC is able to cluster all connected access controller terminals into one access control network over TCP/IP. When we connect SEMAC with PC, system data will be seamlessly integrated thru Management Software, provides a totally Real-Time monitoring environment, in the other hand, when system is under off-line status will efficiently keep user’s punching records and data to the system automatically.
CHUTRO TECHNOLOGY CO., LTD / L101-L103

Electromagnetic Lock 600LED
The Ebolco 600Series electromagnetic lock is renowned with its excellent holding force and remarkable features. The series is compliance to UL and CE certification. This magnetic locks are widely used for wooden doors, iron doors, steel doors, glass doors, and can be controlled by access control system. The advantages of this magnetic locks is made from special magnetic materials in adoption of a particular processing technique that will not produce excessive magnet after a long period, and the sucking board will not be magnetized or causing the reduction of suction force after a long time used. The products present no mechanic failures, no abrasions, and no noises with a longer service life.
EBOLCO INDUSTRIES SDN BHD / L005

600lbs Electro Magnetic Lock
The magnetic lock consists of a magnet mounted onto door frame and a steel plate attached to the top of the door. The door will be strongly closed when magnet is energized with the steel plate bonded to it. Instant release is possible when power supply is cut off, making it most ideal in emergency escape situation. Considered as most durable and with lower power consumption, it is widely used for exit and entry control applications. With no moving parts and little maintenance required, the magnetic lock will at all times provide a feel safe operation.
ESI ACCESS SDN BHD / L008

Matrix Keeper – Attendance Access Control System
Matrix Keeper is the next generation of face recognition and access control system. It is equipped with a 720 Mhz DSP by TI and a 3.5 inches TFT LCD. This system has twin cameras and the infra-red matrix lighting system. All the components are fit in the compact case. It is built to meet the tough industrial standard to withstand the dust and water. This device is well suitable for indoor and outdoor use. The Matrix Keeper is equipped with the proprietary facial recognition algorithm and the IR matrix illumination system. That could circumvent the environmental lighting problem.
FACE-TEK TECHNOLOGY CO., LTD. / L610, L611

FingerTec Face ID 2
FingerTec Face ID 2 - Face + Fingerprint Access and Time Attendance System. Face ID 2 can identify an identity in split seconds without any contact or hassle. It only requires users to look at the machine to get verified; it is as simple as it gets. FingerTec’s Face ID 2 is loaded with a powerful microprocessor that can process dual biometrics authentication methods, fingerprint and face, for accurate personal identifications and for a collection of precise data for time attendance and door access purposes. In addition, FingerTec’s Face ID 2 also accepts card verification for an added security measure. Data communication is made possible through a USB flash disk port and the common protocol TCP/IP, and data from the FingerTec Face ID 2 is processed by the TCMS V2 software, a powerful software compatible with all FingerTec’s products.
FINGERTEC WORLDWIDE SDN BHD / LO07

HF9 – High Frequency Multi-Technology Reader
HF9 is a configurable reader designed to support various types of high frequency cards. It aims to offer a simple yet powerful solution for customers reducing inventory overheads and also ties clients from other device providers. With HF9’s configuring software, the user may set up transferring baud rate and output interface; as well as set up the output data size, format, and type. In short, HF9 provides a wide range of compatibility and the ability for flexible modification, making it the top choice reader on the market.
GIGA-TMS INC. / L100, L102

Face ID
Face ID is industry first embedded facial recognition system with leading “Dual Sensor” Facial Recognition Algorithm, which makes facial recognition more faster and accurate, different source-light within Infrared-light based technology enable the system works well under different environment.

The HID EdgeReader Solo ESR40 is a cost-effective, stand-alone, single-door IP access control solution. This easy-to-use solution enables remote management and report generation via standard web browser. User information, administration, door configuration and retrieval of events are done through a user-friendly, instructional web environment. Providing “Intelligence to the Door”, the flexible EdgeReader Solo ESR40 includes an integrated iCLASS reader. And the EdgeReader Solo ESR40 IP Access Solution can be converted from stand-alone operation to a system reader for a multi-door environment. Providing “Intelligence to the Door”, the flexible EdgeReader Solo ESR40 includes an integrated iCLASS reader. It can be used to learn 64 legal cards by learning card mode function. 4. Setting for Access/ Security/ Open-door functions. 5. With dry A output. Application field: Access Controller / Security Controller / Open the door via intercom / COffer / For all kinds of Mifare Access control applications.

**Parking Equipment & Automation System**

PSS Group is the biggest parking equipment system supplier in Taiwan. All of Automatic Pay Station, Entrance/Exit Station, License Plate Recognition, and Parking Guidance Systems are made in Taiwan. These systems create an Entirely Automated Parking Management System guided by our professional experience in parking system and security fields. The Automatic Pay Station is designed as an all-in one payment-processing unit. It can improve your cash management with ATM-style technology, lower your labor and operational expenses, and improve your customer service for 24-hour operation. Additionally, these systems can increase revenue for your business. PSS Group provides customer design, quality and value for our customers. For more information please visit our website, www.PSS-Group.com

**PSS CO., LTD. / L814-L817**

**RFID Safe Box**

SGC SBR series adopts RFID technology, using the MIFARE wireless radio-frequency communication protocol. It also has anti-cloning technology for all guest and staff keycards, offering powerful anti-cloning solutions. It can be used in office, hotel or even at home. You can store all of your valuables and the spacious design can even accommodate a 13” laptop computer. Besides, the SBR safe can be integrated with other SGC products, such as door locks, energy savers, providing as one-card solutions for homes and hotels.

**HUNDURE TECHNOLOGY CO., LTD. / L704-707**

**Falco Digital IP Door Access Controller**

Falco Digital IP door controller is a true TCP/IP controller, designed for access control of doors, intrusion alarm monitoring, time attendance, vehicle boom gate and other building facilities. Falco controller is upgradable from 1 to 10,000 doors by connecting to server via TCP/IP Local Area Network connection. Furthermore, by connecting to a central controller, the controller allows remote management through networkable Falco Lite or Web software, a real TCP/IP based Access Control Management and Alarm Monitoring Software. The controller provides a cost-efficient upgrade strategy, keeping pace with your emerging security requirements while meeting your ongoing budgetary objectives.

**KLA. SYSTEMS SDN BHD / L701, L703**

**LA VIE Wireless Alarm System built-in GSM-SMS module**

LA VIE Security new GSM—SMS module. Industrial module with two way SMS function. Users may receive SMS and control their personal setting by mobile phone. Collocate with our wireless accessories will give you a wider variety of applications.

**LA VIE SECURITY INTERNATIONAL CO., LTD. / L103**

**Mifare access control module board (PXMF-C06)**

PXMF-C06 is a compact size of Mifare access control module board. It’s designed as a stand-alone proximity access controller. Equipping this module board with antenna, it can be used to login & identify a contactless ID card without connection with PC. Features: 1. Low cost with effective performance. 2. Compact size for designing in all kinds of products. 3. 64 legal cards by learning card mode function. 4. Setting for Access/ Security/ Open-door functions. 5. With dry A output. Application field: Access Controller / Security Controller / Open the door via intercom / COffer / For all kinds of Mifare Access control applications.

ALM-2812 "USB WiGuard" 2.4GHz Digital Wireless NVR Camera System

ALM-2812 "USB WiGuard" is a highly effective, easy installation, low cost, 2.4GHz digital wireless security system, with smart functions to work with PC. Live video surveillance via IE, motion detection, Selectable detecting blocks, Schedulable record time, Sound alert, Alert via E-Mail, ReCord on HD via USB RX, and Adjustable surveying angle… etc. It also is available reliable wireless A/V transmission for 300M in L-O-S Between camera TX and USB RX and, is ideal for the applications: Baby reliable wireless A/V transmission for 300M in L-O-S, Home security and monitoring protection, the active pixel is 640 * 480 resolutions. Use digital spread spectrum technology to ensure interference free and complete privacy. The receiver 907R is TV receiver with SC camera record which are able to extend to 32GB storage memory. Single View or Quad View available in this device. The transmission range up to 100M-transmission range in open area.

HVR-200Z Smart Home DVR

The HVR-200Z is a network digital video recorder which also serves as home automation control center. With H.264 and Motion JPEG compression, the HVR-200 can record up to 4-channel videos and enable live view through the network. Video recording can be stored in the internal HDD, SD card, or USB memory stick. The HVR-200 supports 2-way wireless home control, which can be well applied to control lighting, window shades, HVAC, and audio/video systems. On the other hand, the HVR-200 also can work with wireless sensors, thermostats and smart power meters for energy and alarm/access control applications.

Affordable Security Camera Solutions

Orion introduces several new lines of cameras for different CCTV applications. By utilizing the latest image sensors, Orion cameras offer high quality, high resolution that deliver clear image both day and night. In addition, we also have miniature cameras for use in special applications. We offer wide selections and options for all different conditions and competitive pricing. Orion also offers several powerful IR LED Light Bulbs that can supplement IR illuminations with Spot to Wide angle optics. With the additions of the IR Bulbs, you can now see the night like it is in the day time. With Orion, you are our best partner in surveillance business.

## Homeland Security Pavilion

**Thunder Box**

Thunder Box is a new type of Cash-In-Transit (CIT) box. Traditionally, CIT box is small and easy carried by security personnel. However, the size of it is easy as a target for robbers to grab and run. Attack Thunder Box is much larger than traditional CIT box and has equipped 2 GPS trackers. Other than that, it can emit 150,000v electric shock, 110dB loud discordant alarm and apparent smoking for about 2 minutes. This unlimited distance surveillance ability will increases the difficulty level of robbery and makes the asset transit more secure.

ATTACK TECHNOLOGY INC / J107

**Infrared Twin-beam / Quad-beam Sensor**

LK-800-IDF is Digital Infrared Twin Beam Sensor, provide DC 12v input, detects distance to 80 meters for outdoor use, is designed digitalized, water-proof, dust proof, prevent the small animals, insects, falling leaves, foggy etc. The detection method is Pulse infrared 20KHz / 500kHz double modulation. Also included the 8-channel beam frequencies selectable without crosstalk problem.

CITY WALL ENTERPRISE CO., LTD / L181, L1820

**Thermal Imaging Core with Corning plug and play fiber cabling solution**

TC384 core can be easily integrated into products or systems of (customer)’s design with the multi-interface at backside. A TC core may support the digital video output (LVDS), composite video output (BCN), remote control on PC (RS232) after connected directly with your existing device/network. Corning Cable Systems plug and play ANY LAN solution, you can set up the fiber network easily, save more time and can be maintained by yourself, longer distance and less cost. Integrated this 2 products, the thermal image core can send the image longer distance and less cost in whole system.

GREAT WAV TECHNOLOGY CO., LTD / J105

**Auto Tracking System & Pan & Tilt Positioners**

More than 75 years experience with advanced military (and industry) technology. Moog Quickset is a leading designer of security and surveillance system in the world. Video Tracking Motion System is the achievement by integrate our products. Calibrate with precision and powerful Pan / Tilt Positioner, Long distance camera, Night vision camera, Thermal camera and MEMS Gyro Stabilization. Present an excellent surveillance system to national security.

NEARSON ENTERPRISE CORP / J02, J04, J06

**Portable RCIED (Remote controlled improvised explosive Devices) Jammer**

2000VSW-Super is ultra Broadband DDS RCIED Jammer, developed to defend the operators against explosive devices. It uses DDS of fast high processing quality, and reliability. Jamming minimal Interference outside the desired band, high processing quality, and reliability. Jamming frequency covers 20MHz – 2170MHz. Unlimited for any data. Our WideySTM, MV503 WDR image sensor utilizes this very ability as the basis to produce a high quality image in various illuminated environments. Our WDR image sensor’s top feature is its Single Chip Solution. Standard WDR chips are all multi-chip solution that needs WDR, Sensor Chip and Memory but our single-chip solution that has all in one chip fabricated onto it to perform the full capabilities of a WDR.

AVISONIC TECHNOLOGY CORPORATION / M31, M313

**AVS Industrial CFast Card**

AVS7201 is a multi-plega image processor that enables electronic pan, tilt, and zoom for surveillance, teleconference, security, and other similar camera systems equipped with fisheye lenses. It converts hemispherical image to rectilinear image and supports multi-view display of selected image areas with independent ePTZ. In addition, this product supports CMOS and CCD sensor inputs and is capable of generating up to four CVBS or digital outputs.

AVSIONIC TECHNOLOGY CORPORATION / M31, M313

**CSS Industrial Grade Class 10 SD Card**

CoreSolid Storage* industrial grade SD card conforms to SD memory card specification 3.0 and it is also compatible with specification 2.0 and 1.1. The industrial grade SD card performs with excellent high speed up to Class 10. The sequential read may up to 20MB/s and sequential write may up to 18MB/s. It supports hot insertion and removal, content protection mechanism (CPRM), cryptographic security to protect copyrighted data (SDMI), and user-selectable mechanical write-protect switch on the side. Working with extremely low power consumption under CoreSolid Storage* automatic power management, you get almost no battery required.

CORESOLID STORAGE CORPORATION / M204-M209

**Avilia™ Long Reach Reference Design**

Avilia™ Long Reach CODEC Reference Design provides a complete solution for transmission of High Definition video over long runs of coax cable. Using a single 75-ohm coax cable, such as Belden RG69, serial digital HDcctv video signals can be sent over cable lengths up to 300m. The Long Reach solution supports all HDcctv video formats: 720p25/30/50/60 and 1080p25/30. The Long Reach CODEC is optimized for a low cost kilivide FPGA, paired with Genesis’ Gx7600 transmitter and Gx7601 receiver. The design can be used to implement an encoder for integration in HDcctv cameras, or a decoder for HDcctv DVR applications.

GENNUM CORPORATION / M204
**Exhibitor Spotlights**

**GM8128/GM8126/GM8187/GM8186**

The Grain Media SoC, GM8128/GM8126 and GM8187/GM8186 are for full HD surveillance application. GM8128/GM8126 both are the best SoC with high-end ISP technology, highly integration, varies sensor connectivity and low-power design to realize new generation 1080P/30fps and 720P@45fps IPcam. GM8186/GM8187, the powerful chips for Hybrid HD DVR/NVR. Its flexible 1/4” easily connects HD video from HD-SDI chips to offer 1080P/720P HD and 4DI DVR application with SATAII, DDRII FQA. Composite/HDIMI, 1/3, high-performance H.264 CODEC, 3-D Deinterlacing and Temporal denoising peripherals.

Grain Media, Inc. / M303, M305, M307

**Full HD Video Display Processor**

GM8128-3x is a highly integrated single chip implementation of deinterlacing, format conversion, video enhancement and graphic OSD. And it includes HDMI ver. 1.3 output, analog VGA/Component and CVBS video output. It receives any format video up to Full-HD. Its internal video processing supports 3-D and MPEG noise reduction filter with cross-color suppression, mask noise reduction and mpeg block noise reduction and several kinds of filters for improving picture quality. And it has 4 layers OSD with true color/true color OSD 2 layers. Independent horizontal and vertical scaling functions with anti-aliasing interpolation filter are very flexible for producing any kinds of video output format.

MACRO IMAGE TECHNOLOGY INC. / M315, M317

**PC1089/PC1030 (CMOS IMAGE SENSOR), POA030+PH008 (CMOS IMAGE SENSOR+ENCODER)**

(1) PC1089 (CMOS IMAGE SENSOR): ANALOG V3 INCH (2) PC1030 (CMOS IMAGE SENSOR): ANALOG 1/4 INCH (3) POA030+PH008 (CMOS IMAGE SENSOR+ENCODER): DIGITAL 1/4 INCH + ENCODER

PIXELPLUS CO., LTD. / M215, M217

**2.4GHz Digital AV Sender / D2450**

D2450 is designed at 2.4GHz covering more than 60 channels via hopping mode for CCTV utilization. It transmits crisp radio frequency signal wirelessly through walls or ceilings at high quality D1+gauge resolution and frame rate 20~30fps. With security ID coded communication ensures customer privacy. Digital wireless technology avoids interference. Simply connect the transmitter to AV sources and the receiver unit to AV playback devices.

TRANNO TECHNOLOGY CORP. / M314, M316

**Transcend’s Next-generation Cfast Memory Card**

Transcend’s Cfast cards use the modern SATA interface, delivering transfer rates of up to 108MB/s; users of industrial PCs or SATA 3Gbps compatible devices will be able to store and access information at faster rates between the card and its host device. Featuring a combination of enhanced speed and portability, the Cfast cards are designed to perform like SSD, and as such are extremely capable when used as bootable drives. Besides, the Cfast cards are able to correct data errors, ensure data reliability, and extend the lifespan of their flash memory cells by its StaticDataRefresh and EarlyRetirement technologies.

TRANSCEND INFORMATION INC. / M414-M417

**UC1500 Mega-Pixel ISP**

Opera UC1500F is a high quality Mega-pixel ISP capable of capturing full HD camera applications with HD-SDI, HDMI interface Logic as well as IP camera which can process 720P@30fps/1080P, 1080P@60fps, up to 5MP image signal processing functions such as WDR, 3D DNR, 3A (AE, AWB, ADF), Encode, Motion Detection, Digital Zooming and so on. Functions can be easily added by firmware inside mCU of ISP.

UFINE & HYVIEW TECHNOLOGY / M308, M309

**China Pavilion**

**Megapixel IP IR Cameras**

ICR Day/Night 2 Megapixel CMOS Camera - Format: H.264/MPEG - Support SD Card - Built-in 1 Alarm Inputs, 1 Alarm Outputs - Support 3G,CDMA, GPRS, 2-way Audio - Power Over Ethernet (POE) - 1080P@30fps

AXVIEW TECHNOLOGY (SHENZHEN) CO., LTD / J1220

**L-9000D Mini Guard Tour System**

LANDWELL L-9000D is very popular in the security market with its features of elegant design and light-weight. It is widely applied in any fields with checkpoint installation where you can get to know when, who and what has been there ever. L-9000D patrol solution is very good choice for personnel’s management. Small size, easy to carry, robust,durable, low power consumption, long battery life.

BEIJING LANDWELL ELECTRON TECHNOLOGY CO., LTD. / N521

**CCTV Lens, optical lens**

Application: Install on cctv camera to achieved the image which object been surveilled Operating Principle: cctv lens are the key components of cctv camera, working just like our eyes, through the lens to form an object image will be projected on camera tube or CCD imaging plane.

Central Management System

CMS is the main key of Total Solution and we developed it with our own technology. It enables you to centrally control devices such as DVRs, Network Servers and IP camera through Network. By using CMS, you can record Real-Time images streamed from DVRs/Server/IP Camera or monitor recorded images in DVR at a long distance. It operates e-Map, Live monitoring, Record, Playback, Remote Search, Event Log screens simultaneously. It displays up to 100 Channels per screen at the same time; Max. 500 channels on 5 screens. It supports Max. 4 Monitors depending on VGA performance of the System.

GSP SYSTEMS INC / K844

iCanView340MP

iCanView340MP is a dual-codec (H.264/MPGS)1.3 megapixel IP camera for outdoor environment. Multiple simultaneous video streams of differentiated resolutions and frame rates will ensure highest quality service while enabling simultaneous connections through lower speed networks. Based upon ultra tight swing gear and slip ring, iCanView340MP ensure world’s most silent operation. IP + Hybrid feature supports both real (USB/RS485) and virtual keyboard controller using client software on the PC. Virtual keyboard controller will enable remote client full control of the speed dome, which used to be available only to the users of keyboard controller.

ICANTEK CO., LTD. / K850

DIGITAL VIDEO RECORDER

*Supports upto D1/ Half D1 real-time for 4ch & 8ch *Dual Display (Supporting VGA and Composite at the same time with individual setting - PATENT) *Supporting Digital Signage *Different Resolution and Recording Speed per each Channel *Supporting Phone & Android mobile

INDIGO SECURITY CO., LTD / K845

HIGH DEFINITION DVR (SENTRY9004HD)

This high definition 650 TV Lines (750TV Lines Max) camera ONVIF-660/HBD/TNIR uses 1/3" Sony New Super HAD Interline CCD and built in the latest H-BIRD DSP with the excellent features of D-WDR, 2-DRN, Smart IR, HLC, True Day & Night IR Cut Filter Lens (4~9mm, 2.8~12mm, 5~50mm), OSD menu and 28 pieces of IR LEDS with HLC, True Day & Night IR Cut Filter Lens (4~9mm, 2.8~12mm, 5~50mm), OSD menu and 28 pieces of IR LEDS with 2.8~12mm, 5~50mm), OSD menu and 28 pieces of IR LEDS with high resolution up to 1920x1080.

Complete Security Display All at Secutech 2011

Indicated stand numbers are for Secutech 2011
### Global Digital Surveillance Forum Asia

**HD/Megapixel Surveillance Forum:**
HD has become the necessity in the IP surveillance sector. GDSF Asia 2011 will invite the world’s leading HD surveillance provider to explore issues such as standard, transmission requirement, new applications and case stories.

**Software & Integration Forum:**
Video Content Analysis are now looking into ease deployment, cut false alarms, better features and reduce costs. This platform promotes awareness of VCA and VMS and to entice the cooperation between hardware makers with software developers.

**Storage Management Forum:**
Focus and create to store more information safely and efficiently topics will in-depth into reducing redundancy, discussion of new algorithms, hybrid storage and green performances.

CompoSec conferences are the best place to locate cutting-edge security technology and innovative ideas for the future security arena. Do not miss two days of the most compacted educational references. Industry channel players must join CompoSec especially Product engineers of security manufacturers, R&D decision makers, Technical support and maintenance managers, Owners of presidents of security companies, Project managers and specialists of system integrators, and Major distributors!

The Optimum Platform Where Security Professional Delve into Key Issues

- **HD Surveillance**
  - WDR Sensors, ISP/DSP, codec, SoC, FPGA...

- **Improved Transmission & Interfaces**
  - HD-SDI, Bridge IC, 3G/LTE/ WiAx Module, Ethernet IC...

- **Next-gen Identification & Management**
  - Security/ Motion Sensor, Biometric module, Software...

- **Green Security**
  - HDD/ODD, Flash/SSD, Power Management IC, LED...
